

HIBA ABBAS

APPLICATION ANALYST | BUSINESS SYSTEMS | ENTERPRISE APPLICATION SUPPORT

Pennsylvania, USA | hibaalshammary@yahoo.com | (610) 905-8381 | LinkedIn: Hiba Abbas | GitHub/Portfolio: My Portfolio

PROFESSIONAL SUMMARY

Application Analyst with 5+ years of experience supporting enterprise applications, workflows, integrations, testing, troubleshooting, and data processes. Hands-on expertise with Hyland OnBase, SQL Server, Excel, root-cause analysis, system improvements, technical documentation, and production support. Currently expanding into industrial automation through introductory training in PLC, SCADA, DCS, process-control, MES/ERP integration, and automation-system concepts, building on a strong Computer Science and systems background.

CORE SKILLS

Application & Business Systems: Enterprise Application Support | Business Systems Analysis | Hyland OnBase | Requirements Gathering | Production Support

Data & Reporting: SQL Server / SSMS | Excel (PivotTables, XLOOKUP/VLOOKUP, formulas, filtering/sorting) | Data Validation & Reconciliation | Power BI

Process & Support: Root-Cause Analysis | Workflow & Process Improvement | Software Testing / UAT | REST APIs | Technical Documentation | End-User Support

Automation Systems - Training in Progress: PLC Fundamentals | SCADA | DCS | Basic Process Control | Industrial Automation Concepts | MES / ERP Integration | Commissioning & Qualification Concepts

Enterprise Platforms & Training: SAP ERP | Salesforce CRM | AWS Cloud | Jira | SOX

PROFESSIONAL EXPERIENCE

IT Processor Developer I | NEI Benefits Plan - Newtown Square, PA | May 2022 - July 2026

- Supported business-critical enterprise applications and operational tools; investigated issues, performed root-cause analysis, and coordinated timely resolutions.
- Used SQL Server and Excel to extract, analyze, validate, and reconcile business data and investigate discrepancies.
- Translated stakeholder requirements into OnBase workflow automation, forms, system enhancements, and process improvements.
- Configured, tested, and supported Hyland OnBase Workflow, Life Cycles, Unity Forms, E-Forms, and related components.
- Developed and maintained SQL queries and database processes for troubleshooting, reporting, validation, and integrations.
- Coordinated testing, release validation, deployment support, and migrations across Development, Test, and Production environments.
- Created SOPs, technical documentation, user guides, and training materials; collaborated with users, vendors, project managers, and technical teams.

Network Operations Specialist II | NEI Benefits Plan - Newtown Square, PA | May 2021 - May 2022

- Supported internal business applications, operational databases, infrastructure, document imaging systems, and end users.
- Investigated technical and operational issues, documented resolutions, and coordinated support across technology functions.
- Assisted with business continuity, system upgrades, and operational technology improvements.

Data Entry Specialist & Assistant | Chester County Intermediate Unit - Pennsylvania | Aug 2018 - May 2021

- Maintained accurate records, databases, reports, and organizational documentation while supporting data-intensive administrative workflows.
- Supported staff with technology-related tasks, instructional materials, presentations, and live demonstrations.

Manager Assistant | Force 10 UAE - Abu Dhabi, United Arab Emirates | 2007 - 2013

- Supported management in an international environment, coordinating communications, schedules, travel, meetings, records, vendors, and customer inquiries.

EDUCATION

Master of Science (M.S.), Computer Science - Web Technologies | West Chester University of Pennsylvania | September 2022

Bachelor of Science (B.S.), Computer Science | University of Baghdad, Iraq

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

Completed: Hyland OnBase Developer Certification | SAP ERP Essential Training - LinkedIn Learning (Sep 2026) | Salesforce Essential Training - LinkedIn Learning (Sep 2026) | PMP Exam Preparation - 20 Contact Hours | Full-Stack Web Development Certificate

In Progress: Industrial Automation / Automation Engineering Systems Training - PLC, SCADA, DCS, basic process control, MES/ERP integration, commissioning and qualification concepts | AWS Certified Cloud Practitioner (CLF-C02) Training | Data Analysis Certification | Jira Training | SOX Training
